

## How to Embed PDF in HTML - W3docs

<https://www.w3docs.com> › [Snippets](#) › [HTML](#)

1.

There are several ways for including a **PDF** file in your **HTML** document: Using the `<embed>` and `<object>` tags, which are considered to be old-fashioned ways, because they are deprecated now. ... Another way of adding a **PDF** file to your **HTML** document is using the `<iframe>` tag.
